

SUPPORT FOR TEACHER LEADERS

Peer Coaching

Three-day training designed to develop school based coaches to assist in the creation of a peer coaching culture. Teachers observe one another and learn from the sharing of their craft through feedback conversations.

Clinical Educator Training (C.E.T.)

Three-day training designed to support teachers who desire to mentor new teachers and/or supervise college interns. Participants are given practice in using various tools for collecting and analyzing classroom data. Strategies for preparing data to share in feedback conferences are highlighted.

Administrative Pipeline

Training designed to enhance instructional leadership skills through experiences with self-assessments, leadership scenario practices, and shadowing experiences, so that teacher leaders are ready to step into the role of assistant principal.

Mentoring Council

Comprised of representatives from each school who are charged with attending 4-6 evening meetings per year to communicate district initiatives and information back to their schools to support all teachers.

Video Instructional Performances (V.I.P.s)

The VIPs Project creates a learning community of teachers at select schools to digitally create, video-tape, and analyze classroom lessons embedding high-yield instructional strategies linked to the Instructional Appraisal System. Teachers participate in peer feedback and reflection of classroom practices to enhance instructional practices.

Elevating and Celebrating Effective Teachers and Teaching (ECET²)

ECET² is a platform for teachers to share ideas with one another in order to inspire fellow educators and share great teaching and learning. This annual event is an opportunity for teacher leaders to facilitate workshops that spark engagement, motivation, and learning in order to meet the demands of the Florida Standards.
